

9 Leadership Power Tools to Advance Your Career

Audience:

Business Professionals who are ready to:

- Redefine power from “Power Over” to “Power To”
- Embrace power with intention and use it to lead authentically
- Overcome implicit bias in the workplace - ours and theirs

Description:

This keynote or workshop breaks down the paradigm of power and changes it, from Power Over, to Power To. The ways that you use power can make or break your career. This keynote or workshop starts with how we got where we are today, and takes you through 9 practical tools that you can embrace to create your own power. Whether it's networking, negotiating that next promotion or raise, or reaching out to other women through “sister courage” to change your organization, power is necessary to get things done.

“9 Leadership Power Tools to Advance Your Career” is based on the work of Gloria Feldt, author of the book “No Excuses: 9 Ways Women Can Change How We Think About Power.” As Co-Founder and President of Take the Lead, she created a movement to increase the number of women in senior leadership positions and create parity by 2025, not 2095 as is the current trend. Women are currently stalled at less than 20% of these positions. taketheleadwomen.com

Laurie D Battaglia is a certified Take The Lead Trainer and Leadership Ambassador.

You'll Learn:

- How to redefine power, embrace it with intention, and lead authentically.
- The 9 practical leadership “Power Tools” in bite-sized, useful takeaways.
- How to deal positively with conflict, chaos, and controversy.
- How to create a Strategic Leadership Action Plan to clarify vision and reach goals.

Length of Keynote: 20 to 60 minutes; workshops can run up to 1 day for the full agenda
